

Dave Janke

Vice President of Sales & Marketing
Control Rooms & Simulation, Simulation & Training Group
Barco, Inc.

Dave Janke is Vice President of Sales and Marketing for Barco's North America simulation and training group, which is part of the Control Rooms & Simulation Division. With 20 years of experience in senior management positions in the simulation industry, he has filled assignments in program management, business development, sales, and marketing, and has achieved noteworthy success in growing simulation businesses and improving profitability. Dave joined Barco in 2003 as Vice President and General Manager of the Media Division and later moved to his current assignment.

Prior to joining Barco, Dave spent many years at Evans & Sutherland Computer Corporation, the pioneering company in computer graphics and visual simulation, and traveled extensively as Vice President and General Manager of the International Division. After growing the international business to over \$60 million, he was assigned worldwide responsibility for all sales and business development in the \$110 million Simulation Division.

Dave has actively supported the simulation industry with his participation on committees for IITSEC, ITEC, and the IMAGE Society.

Dave graduated Summa Cum Laude with a BS in Electrical Engineering from Stanford University and holds an MBA from Brigham Young University. His many academic honors include election to the Phi Beta Kappa and Beta Gamma Sigma honorary societies.

Despite his busy professional schedule Dave is a passionate mountain climber and has summited the highest peaks in North America and many in the Swiss and French Alps, including Mont Blanc and his most thrilling ascent of the Matterhorn. He also enjoys art and classical literature and relaxes from time to time at the piano.

Dave and his wife live near the mountains in Salt Lake City, Utah, and enjoy the close association of their four sons and four grandchildren.
