

Dave Janke

Vice President of Sales for the Americas
Esterline Simulation Visual Systems

Dave Janke is Vice President of Sales in the Americas for Esterline Simulation Visual Systems. In his 25 years of experience in the simulation industry he has filled assignments in program management, business development, and sales and has achieved noteworthy success in growing simulation businesses both in the US and internationally.

Dave sank his roots in simulation with Evans & Sutherland Computer Corporation, the pioneering company in computer graphics and visual simulation. He later joined Barco's simulation division as Vice President of Sales and Marketing. Since Esterline's acquisition of Barco's simulation group in early 2015, Dave continues his role in sales.

Dave graduated Summa Cum Laude with a BS in Electrical Engineering from Stanford University and holds an MBA from Brigham Young University. His many academic honors include election to the Phi Beta Kappa and Beta Gamma Sigma honorary societies.

Despite his busy professional schedule Dave is a passionate mountain climber and has summited the highest peaks in North America and in the Swiss and French Alps. He enjoys art and classical literature and relaxes from time to time at the piano.

Dave and his wife live near the mountains in Salt Lake City, Utah, and enjoy a close association with their four sons and seven grandchildren.
